

The Positive Impact of u3a

The Positive Impact of u3a

Members share their u3a stories

In the first in our new series of short films, Geoffrey from Upholland u3a shares how his u3a music group resparked his love for guitar

A new film campaign showcasing how members' lives have been changed for the better by u3a has launched on the u3a YouTube channel.

The first film focuss on Upholland u3a member Geoffrey in his Musicians group. He says, "u3a and being part of this group has given me an excuse to play guitar more. I play guitar everyday now for a few hours at least. I had no incentive to do that before. This band gives me that incentive."

The series spotlights u3a members and the impact that u3a has had on their lives. Using members featured in the Do Something Brilliant Today film, it goes into each members' story in more detail. Films will be released weekly on the u3a YouTube channel.
